Honduras experienced a significant increase in imports of DC circuit breakers for the market, with a growth rate of 27.58% from 2023 to 2024. The compound annual growth rate (CAGR) for the period 2020-2024 stood at 27.79%. This growth can be attributed to the rising demand for energy infrastructure.

A 220-volt circuit breaker is a critical safety device in residential and industrial

electrical systems, designed to protect circuits from damage caused by overcurrent, short circuits, or electrical faults. By automatically interrupting the flow of electricity when unsafe conditions are detected.
