

# High quality power switchgear in Kenya

## Overview

---

Choose the best fit based on your specific power requirements, budget, and desired level of advanced functionality. WE DEAL IN: Schneider, ABB, Siemens, Eaton, and Himel all deal in essential switchgear components for controlling, protecting, and isolating electrical equipment.

Choose the best fit based on your specific power requirements, budget, and desired level of advanced functionality. WE DEAL IN: Schneider, ABB, Siemens, Eaton, and Himel all deal in essential switchgear components for controlling, protecting, and isolating electrical equipment.

Shonco Engineering specializes in the manufacture of low voltage switchgear, including LV switchboards up to 4500A, providing comprehensive solutions for power distribution. Shonco Engineering is specialized in the manufacture of LV switchboards up to 4500A in form II, III and form IV arrangements.

Secpower Technologies LTD supplies, installs, and maintains high-performance Low Voltage (LV) Switchgear systems designed to ensure safe power control, protection, and distribution across residential, commercial, and industrial environments in Kenya. Secpower Technologies LTD specializes in.

A leading manufacturer and supplier of premium transformers and switchgear solutions designed to meet Africa's diverse energy needs. To be the most trusted partner in Africa's energy sector, enabling growth and innovation through dependable electrical solutions. We prioritize quality, customer.

Low voltage switchboard panels play a key role in Kenya's electrical systems. These panels manage the distribution of electricity in homes, offices, factories, and public buildings. Engineers design them to handle electrical power below 1,000 volts. In Kenya, our technicians install these panels in.

Switchgear Limited formerly known as Switchgear and Controls Limited was established in 1974 as a pioneer in the manufacture and supply of Low Voltage Distribution Boards, Motor Control Panels, Power Factor Correction Panels, Automatic Mains Failure Panels, Control Desks, PLC and Instrumentation.

Schneider, ABB, Siemens, Eaton, and Himel all deal in essential switchgear

components for controlling, protecting, and isolating electrical equipment. They offer a range of options for switches, circuit breakers, fuses, busbars, protective relays, and other control and safety systems, catering to.
