

Honiara Containerized Generators

Overview

Are containerized generators reliable?

Years of use in the rental, oil and gas, mining and other heavy-duty industries have tested the reliability, usability and durability of our containerized generators. Our primary design challenges in developing this line of containerized generators were usability, reliability and functionality for the end user.

What size generator container do I Need?

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ambient conditions. Customized sizes to accommodate special project requirements are available on request.

Why should you choose Jenbacher containerized gas power generation solutions?

Jenbacher containerized gas power generation solutions offer a variety of benefits to our customers, thanks to distinctive product features: See for yourself.

Are Jenbacher containers available for gas engines?

Jenbacher containers are available for Type 2, 3, 4 and 6 gas engines. Our containerized solutions ensure excellent reliability for your power and heat generation needs.
