How much does a rooftop solar panel cost in Nairobi

Overview

They cost more per panel (around KSh 28,000 each), but six panels generate what would need ten 300W panels. Less roof space used, simpler installation, cleaner look. For homes, unless you're in a maisonette with limited roof access, you're probably better off with more smaller.

What cost KSh 500,000 three years ago now goes for around KSh 350,000. Chinese manufacturing got better, more competition entered Kenya, and suddenly, solar isn't just for rich folks in Karen anymore. Here's everything I learned about actual costs, what works for different homes around Nairobi, and.

While prices can vary based on brand and system size, here is an approximate breakdown of typical solar system costs in 2025: Small home systems (1–2 kW): Ideal for lighting, TVs, and basic appliances, these systems typically range from Ksh 100,000 to Ksh 200,000. Medium-sized home systems (3–5.
