While mobile CB radios serve truckers and off-roaders well, nothing matches the communication power and reliability of a properly installed base station CB system. Whether you're monitoring local traffic, participating in emergency communications, or simply enjoying conversations with fellow CB.

Most CB radios are designed for vehicles that are powered by DC 12-volt power systems. To get a CB radio for your home or office, your first choice is to buy a CB that's designed for AC power, such as the Galaxy DX 2547. While this Galaxy radio works great and is perfect for a business that's going.

When setting up a base station (fixed location) CB, you have two basic choices of CBs: Base Station CB – A base station CB is a table-top model with a built-in power supply. Advantages of a base station: Has a built-in power supply. Just plug it into

an outlet. Usually feature-rich with plenty of.
