SIGFOX base station family. These series are dedicated for quiet radio environments with limited performance for capacity and blocking resistance. This gives a complementary solution for the SIGFOX network based on macro cell SBS-T base stations. These series are intended for outdoor and.

The TB3hp is the world's smallest high power TETRA base station. It is about the size of a laptop – only a little thicker and heavier. The TB3hp provides up to 15W radio frequency power with very low power consumption. One person can easily carry the TB3hp to the site, install it and set it up.

While mobile CB radios serve truckers and off-roaders well, nothing matches the communication power and reliability of a properly installed base station CB system. Whether you're monitoring local traffic, participating in emergency

communications, or simply enjoying conversations with fellow CB.
