

Italian rooftop solar panel BESS company

Overview

Enerside, a Spanish company vertically integrated in the solar photovoltaic and energy storage industry, has signed a binding agreement with its partner AGE, to acquire the remaining 44% of the stake in the joint venture they have in Italy and thus reach 100% of said company.

Enerside, a Spanish company vertically integrated in the solar photovoltaic and energy storage industry, has signed a binding agreement with its partner AGE, to acquire the remaining 44% of the stake in the joint venture they have in Italy and thus reach 100% of said company.

Independent power producer (IPP) Recurrent Energy has secured €61.5 million (US\$71.4 million) in financing for its Italian renewable power portfolio. The portfolio consists of 124MW operating solar PV and the construction of a co-located battery energy storage system (BESS), however the company did.

Utility and power firm Engie has acquired two BESS projects from Recurrent Energy in Italy, totalling 200MW of capacity. The two battery energy storage system (BESS) projects are both in Latiano in the southern region of Puglia, and are scheduled to begin construction in 2028. Recurrent Energy is.

Italy has emerged as one of the most attractive European markets for Battery Energy Storage System (BESS) investment. Much of the attention has centered around the bankability opportunity offered by the MACSE capacity payment scheme. However there are deeper structural dynamics in play making Italy.

Enerside's General Shareholders' Meeting has approved the company's annual accounts and management for 2024. Barcelona, 23 June 2025. Enerside, a Spanish company vertically integrated in the solar photovoltaic and energy storage industry, has signed a binding agreement with its partner AGE, to.

The construction of a 43 MWh BESS system is part of the €61.5 million non-recourse financing obtained by Recurrent Energy, which also includes a 124 MW solar portfolio. Enertis Applus+ carried out the technical due diligence report for the BESS project, conducting a comprehensive and independent.

An undisclosed Europe-focused energy investor is actively seeking to acquire or co-

develop solar PV and co-located battery energy storage system (BESS) projects across Italy, with a focus on shovel-ready assets expected to reach ready-to-build (RTB) status between 2025 and 2026. Not already a.
