

Jordan single glass solar curtain wall customization

Overview

Who is Jordan architectural?

WELCOME TO JORDAN ARCHITECTURAL YOUR NATIONAL PARTNER FOR UNITIZED AND PREGLAZED FACADES We've been an architectural façade supplier and fabricator for over 25 years. Today, we're a leading national supplier and fabricator of unitized and other curtain wall systems.

What is a curtain wall system?

A curtain wall system is a protective structure for a building's exterior. It consists of a grid in the facade, also known as the mullion, which determines how the glass fits into the wall. Glass curtain walls allow natural light into buildings, making them more energy efficient.

Does Photovoltaic Glass fit in a curtain wall?

No, the BIPV photovoltaic glass structurally does not differ from other types of conventional glazing. Therefore, it is integrated into the building envelope (curtain wall, façade, or skylight) like any construction material. What solar control and comfort advantages does photovoltaic glass offer in a curtain wall?

.

Are glass curtain walls energy efficient?

Glass curtain walls are energy efficient as they help natural light enter buildings. They use specially glazed glass, providing an esthetically pleasing exterior or interior for your office building. The use of natural light reduces the need for artificial lighting, making glass curtain walls an energy-saving solution for commercial buildings. Curtain walls have been used in commercial buildings for a long time, especially in New York City.
