frequency inverter?

Affordable 37 kW frequency inverter on sale, three-phase 230V, 440V, 480V energy-saving variable frequency drive for 3 phase motor speed controls, high start torque, and high efficiency. The 50 hp inverter drive has a rated sync speed of $\leq \pm 0.5\%$, an IP 20 protection rating, and operates at (-10°C, 40°C).

How does a 37kW 3 phase inverter work?

37kW 3-phase inverter includes overvoltage and overcurrent stall control, automatically limiting current and voltage during operation to prevent frequent trips. 3-phase variable frequency drives with V/F and sensorless vector control, including standard RS485 port for monitoring and remote control via PC/PLC.

How much torque does a 37kW frequency inverter have?

37kW frequency inverter with user-friendly keyboard and HD digital display for easy operation. The automatic torque boost and manual torque boost of the 50hp frequency inverter can reach 0.1% to 30%.

What can you control with a 37kW inverter?

Here are some of the key areas you can control with a 37kW inverter: Motor speed adjustment: The frequency converter can smoothly adjust the motor speed, whether it requires high-speed operation or low-speed fine adjustment, it can be easily achieved.
