

Kosovo Communications 5G Base Station

Overview

How will Ericsson 5G impact Kosovo Telecom?

The integration of Ericsson's 5G solutions into Kosovo Telecom's infrastructure is poised to overhaul the region's telecommunications framework. With 5G implementation, Kosovo Telecom is set to boost connectivity, offering its customer base enhanced network performance, faster data transmission, reduced latency, and greater capacity.

Will Kosovan have 5G coverage in 2025?

In February 2023, the regulatory authority granted 5G frequency allocation licenses to the two main telecom companies. By 2025, the Kosovan government's objective is for 50 percent of the population to have 5G coverage, including the coverage of at least one national road.

What is Kosovo Telecom partnering with Vala?

This agreement is a key step in Kosovo Telecom's comprehensive strategy to modernize its Vala mobile network, comprising 400 base stations. Kosovo Telecom's CEO, Burbuqe Hana, shared her enthusiasm for the partnership, highlighting its transformative impact on Kosovo's telecommunications landscape.

Does Kosovo have a mobile phone network?

ARKEP's data indicates mobile telephone penetration in Kosovo covers 100 percent of inhabited zones and 94 percent of Kosovo's territory. Kosovo's telecommunications sector is one of the least expensive in the region and has similar quality voice services in comparison with other providers in the region.
