

Koten circuit breaker factory in America

Overview

KHH is a thermal magnetic type, bolt-on circuit breaker with a high interrupting capacity of up to 15KAIC depending on its operational voltage. It has a common trip, heat sink, heat insulator, rated frequency of 60Hz, rated current of 10A up to 100A, and rated operational voltages of.

KHH is a thermal magnetic type, bolt-on circuit breaker with a high interrupting capacity of up to 15KAIC depending on its operational voltage. It has a common trip, heat sink, heat insulator, rated frequency of 60Hz, rated current of 10A up to 100A, and rated operational voltages of.

K-63N is an inverse time delay type of breaker that is mounted to a din rail. It has 240V rated insulated voltage, 6A up to 63A rated current, and an interrupting capacity of 6KAIC with a common trip operation. This product undergoes quality control testing and certification in compliance with the.

NEMA 1 Premium panelboard is designed with unique specifications; there are no hinges, bolts, or screws exposed. It is made of gauge 16 powder-coated, oven-baked BI sheet with a bolted dead-front. It is built with 100% pure cold-rolled copper busbars to ensure better continuity and safety in.

KSB-S Safety Breaker is a MCB or MCCB that is enclosed in a flame-retardant, impact-resistant plastic enclosure. It is used for indoor applications and is applicable for RCBO, plug-in, and bolt-on type circuit breakers. It is also optional with a socket outlet that has a rated current of 50A.

Founded in 1986, Koten Enterprises Company Incorporated has excelled in the Philippine electrical industry for over three decades. Starting as a trading company, it became a wholesaler in 1992, with circuit breakers as its first product—sparking rapid market growth. Over time, Koten expanded into.
