

# Kyiv assembled battery cabinet

## Overview

---

What is a battery cabinet?

Our battery cabinet, also known as a battery enclosure or battery rack, is a specialized cabinet or housing designed to store and protect batteries used in various applications, including backup power systems, uninterruptible power supplies (UPS), renewable energy storage, telecommunications, and electric vehicles.

What are labtron lithium ion battery storage cabinets?

Labtron Lithium Ion Battery Storage Cabinets are engineered for secure storage and controlled battery charging environments. These cabinets feature self-closing, oil-damped doors and triple hinges for maximum structural endurance. They are constructed with a powder-coated steel body and integrated leak-proof sump for safe containment.

Why are battery cabinets important?

Battery cabinets are an essential component in battery-based energy storage systems. They not only protect the batteries from environmental factors but also contribute to the safety and efficiency of the overall system.

What is a battery cabinet made of?

The cabinets are made of galvanized steel or aluminium, making them easy to position and providing a long service life. A slide-in racking system allows for easy installation of 19" rackmount style battery modules along with rain protected vents on both sides and on top for passive ventilation.
