

# Lithuania Green Energy Storage Project

## Overview

---

The Lithuanian program offers capex grants of up to 30% for battery energy storage system (BESS) projects ranging in size from 15MW to 150MW. The primary focus is to enable these systems to provide balancing services for the national transmission system operator, Litgrid.

The Lithuanian program offers capex grants of up to 30% for battery energy storage system (BESS) projects ranging in size from 15MW to 150MW. The primary focus is to enable these systems to provide balancing services for the national transmission system operator, Litgrid.

Lithuania's Ministries of Energy and the Environment have jointly approved an additional €37 million in funding to expand the country's capital expenditure (capex) support for energy storage projects. The announcement, made on July 18, supplements an existing €102 million fund administered under.

The Ministers of Energy and the Environment in Lithuania have approved an additional €37 million (US\$43 million) for an energy storage capex grant scheme, while Trina Storage has secured orders in the country. The additional funds from the Ministry of Energy were announced last week (18 July). The.

Additional funding has been approved by the Ministry of Energy and Environment to support its ongoing energy storage procurement program, following overwhelming interest from potential beneficiaries. Meanwhile, Trina Storage has secured the first 180 MWh of battery storage projects in the country.

Lithuania is significantly accelerating its transition to renewable energy with a major investment in high-capacity electricity storage systems. The country is injecting nearly €45 million through a new funding call to support its growing renewable energy sector, a decisive move to ensure grid.

During the transition from the Russian power grid to the European continental power grid in the Baltic region, battery energy storage systems played a crucial role. Meanwhile, Lithuania has launched a € 102 million energy storage support program. Fluence deploys 50MW battery energy storage system.

## Lithuania Green Energy Storage Project

### Lithuania Launches EUR102 Million Energy Storage Support Plan

A few days before announcing its withdrawal from the BRELL grid, the Lithuanian Ministry of Energy announced its application for a EUR 102 million financial support plan for grid ...
