

# Lithuania grid-connected solar inverter

## Overview

---

Does Lithuania block Chinese manufacturers from remotely accessing solar power plants?

Lithuania's parliament Image: BigHead, Wikimedia Commons The Lithuanian parliament has passed legislation blocking Chinese manufacturers from remotely accessing the country's solar, wind, and storage facilities.

How many solar farms are there in Lithuania?

The changes will enter into force on May 1, 2025. According to the ministry, there are currently more than 1,000 solar and wind farms larger than 100 kW in Lithuania and there are also several batteries of the same capacity, and some of their control systems are Chinese-made and remote-controlled.

How many solar panels are installed in Lithuania in 2023?

Lithuania had a total of 1,165 MW of installed solar by the end of 2023, according to figures from the International Renewable Energy Agency (IRENA). Are Chinese solar inverters a security risk?

In the case of solar PV, this applies most obviously to Chinese inverter manufacturers. In theory, the digital and cloud infrastructure around inverters allows them to be remotely controlled, or turned off altogether, which can prove a security risk.
