The Lamor Collapsible Tanks fulfill the basic need to temporarily store recovered oil on site. The modular storage tanks are highly flexible for storing recovered oil in remote locations and environments. They can quickly be erected for instant operational use and disassembled compactly for.

Advanced Container Co. supplies rugged, secure, and customized shipping containers built to withstand the harsh demands of oilfield and offshore environments. With over 35 years of experience, we understand the unique storage, safety, and logistical needs of the oil and gas industry — from.

The floating recovered oil storage tank is a towable floating oil/water storage tank with a hull shaped storage pocket. The tank/ barge is manufactured from neoprene coated fabric, which is strong, durable and lightweight. The superstructure is composed of compartments with internal airtight.

The Crude & HFO Storage Tank from TEC Container Solutions provides high-capacity, insulated static storage for crude oil, heavy fuel oils (HFO), and other high-viscosity products. Built with a double-walled, fully banded design, it ensures environmental protection while maintaining stable product.

Sealable, reusable oil storage containers are the solution to prevent contamination. They make lubricant storage and handling easy, efficient and clean. Best practice recommendations also include integrating a color-coding system that includes properly labeled containers to prevent misapplication.
