

Long-term bulk procurement of mobile energy storage containers

Overview

This initiative will help meet energy storage goals and complement the growing use of intermittent technologies on the transmission and distribution systems. The RFP will be conducted in two phases. Any interested bidders must submit a Phase I offer no later than 5 p.m. EPT on August.

This initiative will help meet energy storage goals and complement the growing use of intermittent technologies on the transmission and distribution systems. The RFP will be conducted in two phases. Any interested bidders must submit a Phase I offer no later than 5 p.m. EPT on August.

On May 13, 2025, the New York State Energy Research and Development Authority (“NYSERDA”) released a draft Index Storage Credit Request for Proposals (ISCRFP25-1) for bulk energy storage projects (the “Draft RFP”). ISCRFP25-1 is the first of three solicitations planned by NYSERDA in service of.

NYSEG has developed a request for proposal (RFP) to procure a minimum of 10 MW of energy storage projects to be in service by December 31, 2030. This initiative will help meet energy storage goals and complement the growing use of intermittent technologies on the transmission and distribution.

The 2024 UDR Request for Proposal (UDR4) was released December 16, 2024. The program grants scheduling and dispatch rights to Con Edison for new front-of-the-meter energy storage resources in exchange for enhanced revenue certainty. Must be interconnected in the CECONY and O&R service territory.

NEW YORK STATE — Gov. Kathy Hochul on July 28 announced the launch of New York’s first Bulk Energy Storage Request for Proposals (RFP), intended to procure one gigawatt (GW) of bulk energy storage as part of New York’s 6 GW Energy Storage Roadmap. Adding bulk energy storage to New York’s grid will.

On March 21, 2025, the New York Public Service Commission (PSC) approved the draft implementation plan for the New York State Energy Research and Development Authority’s (NYSERDA) bulk energy storage program—with a number of changes. 1 This bulk storage program will provide incentives for energy.

Massachusetts has issued a Request for Proposals (RFP) to solicit bids for long-term

contracts for up to 1500 MW of energy storage projects. Energy storage is a key tool in reducing our reliance on carbon-emitting generation by storing energy from intermittent renewable generation resources like.
