

# Macedonia single glass solar curtain wall customization

## Overview

---

What is a unitized curtain wall system?

Unitized curtain wall systems, assembled and glazed in the shop environment, offer the advantage of faster installation, improved product quality and lower installation costs. Kawneer's curtain wall systems are engineered to meet the highest standards of performance, design and sustainability.

Does Photovoltaic Glass fit in a curtain wall?

No, the BIPV photovoltaic glass structurally does not differ from other types of conventional glazing. Therefore, it is integrated into the building envelope (curtain wall, façade, or skylight) like any construction material. What solar control and comfort advantages does photovoltaic glass offer in a curtain wall?

.

Does Kawneer manufacture curtain wall systems?

As a global leader in curtain wall system manufacturing, Kawneer engineers a comprehensive range of curtain wall systems available in traditional stick fabrication and unitized options. Stick-build curtain wall systems are assembled and glazed in the field with inside or outside glazing options.

Can a glazed curtain wall be installed inside an office?

Glazed curtain walls can be installed inside an office setting as well as for exterior window wall applications. These systems have outside glass walls that are opaque, and the interior is lined with glazed curtain walls. Glaze curtain walls are easily adaptable and require low maintenance.
