

Monaco Distributed solar Energy Storage Company

Overview

What is a solar & battery storage platform?

The trusted platform for commercial solar, battery storage, and distributed energy solutions with zero upfront investment.

How much money did DSD invest in a solar project?

What immediately followed was the creation of a \$250 million project development fund, providing capital for a wealth of new distributed generation projects and expanding DSD's coast-to-coast solar project footprint. Additional capital raises would eventually expand to \$1.8 billion in funding.

What is distributed energy storage?

The company's distributed energy storage solutions combine massive arrays of industrial-strength lithium-ion batteries with specialized software and control systems to enable flexible energy optimization.
