

N-type bifacial cell double glass module

Overview

Ref: 420THRU-DAS-DH108NA420Bifacial Double Glass Module (Black Thru) DAS-DH108NADownload Datasheet here Key Features High Efficiency Leading module efficiency in industry, up to 22.3% Excellent Appearance and Performance Bifacial solar cell, symmetrical design, low risk of.

Ref: 420THRU-DAS-DH108NA420Bifacial Double Glass Module (Black Thru) DAS-DH108NADownload Datasheet here Key Features High Efficiency Leading module efficiency in industry, up to 22.3% Excellent Appearance and Performance Bifacial solar cell, symmetrical design, low risk of.

Module adopts 182*199mm half cells, bifacial module provide an additional 5%~25% output. Mechanical load tests including wind load 2400 Pa and snow load 5400 Pa done by TUV. Ensure the attenuation probability caused by PID phenomenon is minimized. Strict salt spray and ammonia corrosion test by TUV.

The medium-format n-type series modules adopt 210R rectangular silicon wafer design. 210R technology not only breaks through the conventional medium-sized module power output bottleneck of 600W but also optimizes system performance. The bifacial double glass module produces more energy. Our N-type.

ed according to Power Binning Tolerance (1.2.) From the 2nd year: Max tion instructions and the warranty conditions must be followed. Due to technological progress, product parameters will be adjusted accordingly. When sig .

IEC61215/61730, IEC62804(PID), IEC61701(Salt). Module adopts 182*210mm half cells, bifacial module provide an additional 5%~25% output. IEC62716 (Ammonia), IEC60068-2-68(Sand). ISO 9001:2015/quality management system. ISO 14001:2015/environmental management system. ISO 45001:2018/occupation health.

Interest in N-type bifacial modules has rapidly increased due to their ability to generate more power than conventional P-type bifacial thanks to their higher bifacial factor, lower degradation, lower temperature coefficient in addition more energy density and power class. Bifacial solar cells can.

The JA Solar JAM72D40 MB modules from the DeepBlue 4.0 series deliver

570–595W with high-efficiency Mono-PERC cells and 16 busbars. Featuring a bifacial double-glass structure and black frame, their half-cell design improves durability, minimizes shading losses, and maximizes energy output from.

N-type bifacial cell double glass module

720W 210mm 132 Cells Double Glass Bifacial HJT Mono Half Cell PV Module

Bluesun 720W Bifacial Half Cell Solar Panel, featuring the latest TOPCon N-Type technology. Designed for business applications, this panel offers an impressive efficiency of up to 23.2% ...

For N-type Bifacial Technology, Dual Glass Structure is Preferred

Dual glass is the preferred structure for the rear side cover of the N-type modules because the glass-glass version can maximize the advantages of the N-type.
