

Nalian Solar Booster Pump Water Pump

Overview

What is a solar pump booster in the SQB series?

The solar pump booster in the SQB series is used for pumping water from wells and ponds, increasing water pipe pressure, garden irrigation, and automatic water supply systems. It features a simple construction, economical design, high durability, and reliability. Voltage: DC 24V, DC 48V, DC 72V. Power: 210W~750W. Max. head: 60m.

Why should you choose a solar booster pump supplier?

Our Solar Booster Pump offers exceptional quality within the Water Pump category. Collaborating with a water pump supplier for wholesale acquisitions can significantly reduce costs, streamline procurement processes, and enhance product availability.

Are solar-powered water pumps eco-friendly?

Whether you are looking for the most environmentally friendly pumping solution on the market or want to give your garden a plus of beauty and elegance, a solar-powered water pump is what you should look for. It's 100% green, efficient and cheap! Each pump comes with its solar panel, and it's straightforward to install and use.

How to use a solar water pump?

The Sunsbell Solar Water Pump is ideal for a garden patio or pond. It comes in with a 3 m long cable and 4 different nozzle heads. It's very easy to use- just immerse the pump under water, place the panel under full sunlight and it will start automatically. Besides, the beautiful waterfall will give your garden a unique, special look.
