

New Energy Shared Battery Replacement Base Station

Overview

The battery storage, which will replace the 20 MW NRG Arthur Kill GT1 peaker plant unit retiring in 2025, will store power during non-peak hours and discharge power during peak demand periods, helping to maintain grid stability and resiliency.

The battery storage, which will replace the 20 MW NRG Arthur Kill GT1 peaker plant unit retiring in 2025, will store power during non-peak hours and discharge power during peak demand periods, helping to maintain grid stability and resiliency.

QUEENS, NY —Today, New York City Economic Development Corporation (NYCEDC) and the New York City Industrial Development Agency (NYCIDA) announced the advancement of a key commitment in New York City's Green Economy Action Plan to develop a clean and renewable energy system. NYCIDA closed its.

With the ability to accommodate multiple battery formats and chemistries — from cylindrical to pouch to prismatic cells — Battery-NY comes as both a critical and novel facility to fill gaps in U.S. manufacturing and innovation. Companies can save time and money by de-risking their prototypes.

uster in Upstate NY. NENY is enabling a pilot manufacturing facility, supply chain expansion, technology innovation, environmental justice, and workforce development. A Tech Hub Designation will supercharge this momentum and transform the cluster into a leading battery technology innov.

New Energy New York (NENY) and the New York Battery and Energy Storage Technology Consortium (NY-BEST) are pleased to announce a new Request for Proposals (RFP) for Battery Data Management and Analytics Solutions for the NENY Supply Chain Program, supported by the U.S. Economic Development.

New York City's largest battery storage facility will replace a natural gas peaker plant unit retiring in 2025. Utility-scale battery energy storage developer Elevate Renewables and ArcLight Capital Partners will install a 15 MW/60 MWh distribution-level battery storage facility at the Arthur Kill.
