

# New Zealand Auckland computer room solar container system manufacturer

## Overview

---

100% Kiwi owned, Taspac was founded in 2014 with a very simple goal - to provide best-in-class renewable energy solutions to New Zealand solar installers and electricians, backed up with a high level of local sales, technical and warranty support.

100% Kiwi owned, Taspac was founded in 2014 with a very simple goal - to provide best-in-class renewable energy solutions to New Zealand solar installers and electricians, backed up with a high level of local sales, technical and warranty support.

Taspac Energy is NZ's premium supplier of Solar PV and Energy Storage Solutions. 100% Kiwi owned, Taspac was founded in 2014 with a very simple goal - to provide best-in-class renewable energy solutions to New Zealand solar installers and electricians, backed up with a high level of local sales.

Infratec delivers low-carbon energy solutions at a time of record growth in Aotearoa. We are developers, designers, engineers, installers. Join us at the forefront of technology as we build renewable energy projects for future generations. We can offer end-to-end consulting, design, development.

A global inverter and storage manufacturer with a complete range of products for solar and storage projects in Australia and New Zealand. Sungrow make a complete range of solar inverters and energy storage products for residential, commercial, industrial and utility grade solar projects. There is.

We are one of New Zealand's leading suppliers of solar components and technical assistance with solar power and renewable energy systems. We specialise in the design, supply and installation of large scale solar power systems throughout NZ and the Pacific. Since 1995 we have worked with our clients.

Our solar battery systems combine solar power with storage, providing maximum independence, efficiency, and peace of mind during power outages. We're committed to guiding customers in their journey towards energy self-sufficiency. We do this by providing reliable, sustainable, and cost-effective.

All major banks in New Zealand offer green energy finance options, enabling their

customers to install solar systems, air conditioning, ev charging systems and home batteries for little to no interest cost. How much is your monthly energy bill?

Anything else we should know?

Auckland wide solar.
