

New Zealand Auckland solar container battery Price Quote

Overview

Battery Systems Prices: The average battery cost is \$1,249.79 per kWh, with smaller systems offering affordability and larger systems offering. In New Zealand, the price of a solar battery storage device varies from \$6,000 to \$20,000.

Battery Systems Prices: The average battery cost is \$1,249.79 per kWh, with smaller systems offering affordability and larger systems offering. In New Zealand, the price of a solar battery storage device varies from \$6,000 to \$20,000.

After surveying almost 100 New Zealanders about their solar and battery installs, Mysolarquotes recently released 'The Hidden Costs of Solar and Battery Systems in New Zealand: 2024 Insights' report. And it's good news for customers looking to go big. As the report summarised in its key takeaways.

From our annual survey of MySolarQuotes.co.nz users, we now have a clearer picture of what Kiwis paid for solar power and battery systems in 2024. I have unpacked the numbers and explored the trends from the unique “organic” solar market in New Zealand - which still has no Government incentives!

On average solar batteries sold in New Zealand have a price range of \$6000-\$20000. This range is quite broad; lower-capacity batteries are cheaper than high-capacity batteries. Other than this, some solar panel systems such as Tesla Powerwall 2 have built-in storage systems which are why they cost.

Watch this video for a simple explanation. Save even more money by adding battery storage to your solar system. Capture energy from the sun during the day for use at night time or in an outage.
