

# New energy storage equipment manufacturers in the Middle East

## Overview

---

Two major Middle East and North Africa (MENA) region projects combining solar PV and battery storage have progressed in Saudi Arabia and Egypt through ACWA Power and Scatec, respectively.

Two major Middle East and North Africa (MENA) region projects combining solar PV and battery storage have progressed in Saudi Arabia and Egypt through ACWA Power and Scatec, respectively.

As the world accelerates toward a sustainable energy future, the Middle East, long synonymous with oil and gas, is emerging as a powerhouse in energy storage innovation. The intermittent nature of renewable energy sources like solar and wind demands robust storage solutions to ensure grid stability.

The Middle East and Africa Battery Energy Storage System (BESS) Market Report is Segmented by Battery Type (Lithium-Ion, Flow Batteries, and More), Connection Type (On-Grid and Off-Grid), Component (Battery Pack and Racks, Energy Management Software, and More), Energy Capacity Range (10 To 100 MWh).

Anita Li, vice president of Jinko ESS, reflects on a 'transformational year' in which the energy storage arm of the vertically integrated solar manufacturer continued to expand. As we welcome the end of another year and greet the next, here are the top 10 most-read news stories from 2025. Our.

Battery storage technology has become the cornerstone of the Middle East's ambitious energy transformation, providing essential support for grid resilience, seamless renewable energy adoption, and strengthened energy independence across the region. The Battery & Energy Storage sector at Middle East.

In the U.S., ongoing trade tensions with China have led to tariffs reaching 64.9% (comprising a 3.4% basic tariff, a 7.5% tariff under Section 301, a 20% new tariff on Chinese goods, and an additional 34% retaliatory tariff). It is projected that the Section 301 tariff will rise to 25% starting.

In the global push toward sustainable energy, the Middle East is emerging as a leader in adopting electrochemical energy storage, particularly through battery energy storage systems (BESS). Countries like Saudi Arabia, the United Arab

Emirates (UAE), and Oman are leveraging their abundant solar and.

## New energy storage equipment manufacturers in the Middle East

### Trina Storage Unveils Next-Generation 6MWh+ Energy Storage

...

Trina Storage has established a strong global presence, with cumulative shipments reaching 12 GWh by mid-2025. In the Middle East, the company has demonstrated ...
