

Nordic Uninterruptible Power Supply Equipment

Overview

This is a revolutionary line, designed to provide uninterruptible power whatever condition the system is in, by means of sophisticated and completely automatic management of any type of industrial battery.

This is a revolutionary line, designed to provide uninterruptible power whatever condition the system is in, by means of sophisticated and completely automatic management of any type of industrial battery.

Nordic power Supply is a Swedish company that develops and sells quality equipment for power line construction. We build and adapt products to the customer's request. Our focus has always been safety, quality and satisfied customers. We use cookies on our website to give you the most relevant.

Due to more than 50 years of experience in delivering uninterruptible power supplies to the Nordic electricity grid, we create robust and reliable systems and solutions designed for challenging environments. Feel safe with us. We won't let you down! KraftPowercon DC systems are installed within.

Data center design and build company CTS Nordics, together with Eaton, announced the opening of the new NordicEPOD factory in Oslo. NordicEPOD's state-of-the-art facility is now manufacturing standardized power modules called EPODs that shave weeks off data center construction time. Eaton's.

Uninterruptible Power Supplies (UPS) are critical devices that provide emergency power to a load when the input power source fails. These systems are essential for safeguarding sensitive electronic equipment from power disturbances, including outages, voltage sags, surges, and frequency variations.

Intelligent power management company Eaton, and data centre design and build company CTS Nordics, today officially announced the opening of the new NordicEPOD factory in Oslo. NordicEPOD's state-of-the-art facility is now manufacturing standardised power modules called EPODs that shave weeks off.

This is a revolutionary line, designed to provide uninterruptible power whatever condition the system is in, by means of sophisticated and completely automatic management of any type of industrial battery. Easy to install, these are compact

devices which perform three key functions: power supply.
