

Ottawa Energy Storage Container Long-Term Order

Overview

Ottawa BESS 2 Limited Partnership has developed this Community and Indigenous Engagement Plan (the “CIEP”) for Ottawa BESS 2 (the “Project”), a proposed up to 75 megawatt stand-alone lithium-ion battery energy storage system project located in the Metcalfe region of the.

Ottawa BESS 2 Limited Partnership has developed this Community and Indigenous Engagement Plan (the “CIEP”) for Ottawa BESS 2 (the “Project”), a proposed up to 75 megawatt stand-alone lithium-ion battery energy storage system project located in the Metcalfe region of the.

Ottawa BESS 2 is a proposed up to 75 Mega-Watt (“MW”) lithium-ion Battery Energy Storage System (“BESS”) that will be located at 2393 8th Line Road, Ottawa, ON, K0A 2P0. The Project will be submitted to the Independent Electricity System Operator’s (“IESO”) Request for Proposals under the Long-Term.

In October 2023, the Independent Electricity Systems Operator (IESO) put out a call for proposals for new Battery Energy Storage Systems (BESS). Through this competitive procurement process, known as the Long-term 1 Request for Proposals (LT1 RFP), the province looked to procure year-round capacity.

Whether it’s used for equipment housing, battery energy storage systems (BESS), or off-grid control rooms, shipping containers offer scalable, weatherproof, and relocatable solutions that support the dynamic needs of the clean energy sector. At Easy Access Storage Co. Inc., we proudly work with.

ENVIRONMENTAL DEFENCE, COMMUNITY ACTION FOR ENVIRONMENTAL SUSTAINABILITY (CAFES) Toronto | Traditional territories of the Mississaugas of the Credit, the Anishinaabeg, the Haudenosaunee, and the Wendat - Environmental Defence and Community Action for Environmental Sustainability (CAFES) applaud.

In 2025, the City of Ottawa established official plan and zoning provisions for battery energy storage uses in accordance with new Official Plan policy. BESS is an emerging technology using batteries and associated equipment to store excess energy from the electrical grid, which can then discharge.

Ottawa BESS 2 Limited Partnership has developed this Community and Indigenous

Engagement Plan (the “CIEP”) for Ottawa BESS 2 (the “Project”), a proposed up to 75 megawatt stand-alone lithium-ion battery energy storage system project located in the Metcalfe region of the City of Ottawa. (55). Does Ottawa have a battery energy storage plan?

In 2025, the City of Ottawa established official plan and zoning provisions for battery energy storage uses in accordance with new Official Plan policy. BESS is an emerging technology using batteries and associated equipment to store excess energy from the electrical grid, which can then discharge energy in periods of high demand.

How will a battery storage project benefit Ottawa?

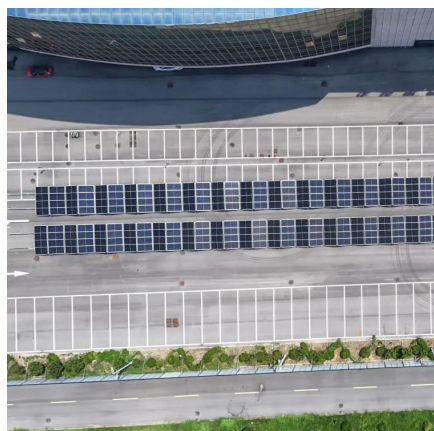

The battery storage project alongside the six solar projects Council supported earlier this fall will reduce the city’s reliance on expensive gas-fired electricity during peak demand and strengthen Ottawa’s ability to meet its climate and energy commitments.

Will Ottawa City Council approve Marchurst battery storage zoning?

“Ottawa City Council’s approval of the Marchurst battery storage zoning is a strong and welcome step in our local energy-transition journey, but it is only one step.
