Achieve energy independence with our off-grid solar systems. Perfect for cottages, remote properties, and independent living, our solutions provide reliable, sustainable power where you need it most. Enjoy freedom and sustainability tailored to your lifestyle.

Off-grid, or “stand-alone,” solar systems generate and store their own power without relying on the electrical grid. For remote properties where bringing in hydro is difficult or costly, an off-grid system can provide dependable, year-round energy. We’ve designed and installed hundreds of off-grid.

Valley Solar is one of the largest installers of Net Metering, Off Grid and Power Back Up solar power systems in the Greater Ottawa Region. We do it all. With our Innovative Designs Produce power for you use or to offset the cost of your electricity bill Provide electricity in a closed system.

We offer Commercial and Residential Solar Power and Backup Battery Solutions in the Greater Ottawa Area We offer solar energy solutions customized to your needs and budget using the newest technology. We provide complex support from the start to the end, including real-time production monitoring.

The size and cost of the cost of any off-grid system is determined by the electrical lifestyle that you wish to enjoy and the heating system you select. We provide scientific analysis and thorough planning for our projects. (No rule of thumb approaches). We prefer to engage on a whole building.

In a city blessed with an average of 4.6 hours of sunlight daily, Ottawa offers a unique opportunity for those seeking energy independence through off-grid solar systems. This isn’t just about cutting electricity bills—it’s about embracing a lifestyle that aligns with environmental responsibility.
