

Palestine grid-side energy storage power station

Overview

In 1999, Palestine Electric Company (PEC) was formed in the Palestinian territories as a subsidiary of Palestine Power Company LLC to establish electricity generating plants in territories under PA control. In 2010, PADICO Holdings, PEC and other Palestinian companies formed the Palestine Power Generation Company (PPGC) to build power plants in areas under PA control. Overview produces no oil or natural gas and is predominantly dependent on the (IEC) for electricity. According to , the Palestinian Territory "lies above sizeable reservoirs of oil and natu.

Almost all liquid fuel used in the Palestinian territories is supplied by or via Israel. The supply of petroleum is centrally located at two different terminals in the West Bank and one terminal at the , at the.

The (IEC) supplies most of the electricity in the Palestinian territories. PETL is the sole buyer of imported electricity for distribution in West Bank Areas A and B and in the Gaza Strip.
