

Paris New Energy Station 125kWh

Overview

Does Paris have a hydrogen station?

It begins by pointing out that Paris has been playing a pioneering role in the deployment of stations and vehicles since 2015, with Hype helping to kick-start hydrogen mobility. The AREC IDF reported that on 1 January 2024, there were 9 hydrogen distribution stations, including one also for production at Porte de Saint-Cloud.

How much geothermal energy does Paris have?

Deep geothermal energy: 3 TWh (x 3.5 compared to 2015) With 45 facilities, Paris Region is the #1 Region in Europe for its number of production plants which supply heating networks. 20 new deep geothermal boreholes are planned for construction by 2030.

How many wind turbines are there in Paris?

Wind power: 2 TWh (x 13 compared to 2015) Today, there are no more than thirty wind turbines in the Paris Region. It was estimated that by 2030, the Region has the potential to deploy about 300 wind turbines spread out over 40 wind farms.
