

Penang Malaysia single glass solar curtain wall customization

Overview

What is a photovoltaic curtain wall?

Building Integrated Photovoltaics At Onyx Solar we provide tailor-made photovoltaic glass in terms of size, shape, transparency, and color for any curtain wall design. Photovoltaic curtain walls transform any building into a self-sufficient energy infrastructure and enhance the building's architectural design.

Why do we install solar panels at Balakong & Penang?

By installing solar panels across multiple production facilities and offices at Balakong as well as at Penang, we have lowered our carbon emissions and decreased dependence on non-renewable energy. Our solar panels across all facilities generate 6,500+ GJ annually, directly powering production while cutting emissions.

What is curtain wall glazing?

The curtain wall method of glazing allows glass to be used in large uninterrupted areas creating consistent attractive facades. The flexibility in choice of NSG Group products allows the designer to control every aspect of the performance from thermal to solar considerations and ultimately the design statement for the building.

What is a curtain wall system?

Its specialty encompasses state of the art façade system such as unitized curtain wall which has much better performance in term of structural, air and water defense as well as ease and safe site installation methodology.
