

Portable generator container dimensions and specifications

Overview

Assuming the unit length is X and width is Y, the conventional dimensions of the generator set room are: Length: X + 1.5m (generator end) + 2m (auxiliary equipment) + 1m (clearance and container wall thickness) Width: Y + 2×0.7m (passages) + 2×0.1m (container).

Assuming the unit length is X and width is Y, the conventional dimensions of the generator set room are: Length: X + 1.5m (generator end) + 2m (auxiliary equipment) + 1m (clearance and container wall thickness) Width: Y + 2×0.7m (passages) + 2×0.1m (container).

Whether you need a compact enclosure for a portable generator or a larger-scale solution for industrial generators, our team of experts can tailor the enclosure to meet your exact specifications. What are the Benefits of Custom Generator Containers?

Our containerized generator enclosures are built.

Manufacturing plants, commercial buildings and government properties require dependable backup power in the event of utility outages to maintain business continuity and prevent critical losses. No matter what your power demands and challenges are, Phoenix Products can package your generator in ISO.

Our generator enclosures are known for their supreme quality, appearance, and durability. We custom build to our customers specifications up to 4MW. Our UL listed stationary enclosures are custom designed & manufactured to your specifications. They are suitable for generators 500-4000 KW. Our team.

The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.).

Our Tier 4 containerized generators are high-powered —500 kW to 1250 kW— units packaged in 30-foot or 48-foot ISO containers. The larger footprint of these units allows for more versatility from a manufacturing specification standpoint — we can easily equip your gen set with greater levels of sound.

Factory pre-integrated and customizable per site requirements, the new Cummins Containerized Series generator sets can provide significantly shortened lead time for installation, and a lower cost of ownership via a flexible design. Developed in-house based on our legacy of technological innovations.
