Almost all portable power stations that are currently sold on the Ukrainian market are manufactured in China and have inflated prices. Therefore, we created and manufacture our own product in Ukraine - BLACKOUT with a capacity of up to 7.7 kWh and a power of up to 12 kW. You can chose the battery.

Portable energy storage solutions are playing a vital role in filling the gap and providing reliable power in off-grid locations. Our portable power stations offer an excellent solution for such scenarios. These compact, high-capacity systems are capable of powering essential appliances, medical.

When does it make sense to buy a power station and how to pick the right one for your personal needs?

Mind asked experts of three retail chains – Epicentr, ALLO and Citrus – to explain all this. The editors have also monitored the prices of the most popular models in Ukraine and abroad. What is it.

Zendure SuperBase V4600 portable power supply. One Zendure SuperBase V4600 can provide power up to 2900W, and several units can be chained up to 6600W. This power is enough for the normal operation of the house, including the washing machine, dryer, h. 112 000.00грн. Zendure SuperBase Pro 1500.

With infrastructure often destroyed or unavailable in conflict zones, portable power solutions such as generators, EcoFlow units, 12V batteries, and inverters have become indispensable tools for Ukrainian forces, ensuring they remain operational in even the harshest conditions. Generators are a.

STUHR, Germany, Nov. 27, 2023 /PRNewswire/ -- BLUETTI, a leading power solution brand, has made a strategic market entry into Ukraine by offering several convenient power stations on its new Ukrainian website to power households through possible blackouts. For emergency power needs, BLUETTI offers.
