

# Power generation equipment container house manufacturing plant

## Overview

---

Power generation, cogeneration or trigeneration, we deliver high-quality containerized plants that are modularly designed to meet your project's unique requirements. Our plants support different electrical outputs, gas applications, noise, exhaust, and environments.

Power generation, cogeneration or trigeneration, we deliver high-quality containerized plants that are modularly designed to meet your project's unique requirements. Our plants support different electrical outputs, gas applications, noise, exhaust, and environments.

Shipping containers have emerged as versatile enclosures for industrial power equipment, offering a ready-made structure that can be adapted for generators, compressors, and other heavy-duty units. MODS, a leader in container customization, specializes in converting standard shipping containers.

Compact modules for the TCG 3016, TCG 3020 and TCG 2020 gas engines. Complete turnkey systems for special applications. Complete turnkey systems - planning, configuration, installation, service - all from one source. 270 containers with 245 MW el have already been installed worldwide. Complete MWM.

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized units delivered, our genset containers offer optimal performance in various site conditions. By maintaining.

By using a plug & play containerized plant, launching and interconnecting, as well as scaling, becomes very simple. You are able to avoid the paperwork of building permits and can easily move, add or even replace containers in your project. Its fast assembly time of 2-5 days and serviceable design.

We have significant experience with pre-packaged container and enclosure solutions for engine-generator sets, balance of plant equipment, and switchgear. Northeast-Western Energy Systems USA, LLC ("NES-WES") has provided simple drop-over housings to fully integrated, pre-packaged modularized.

That is why earlier this month, Cummins Power Generation expanded the release

of their fully integrated containerized generator sets Centum™ Force, to serve 50Hz markets around the world. Originally launched for limited markets in 2021, the 40-ft containerized generator sets were engineered for.
