

Riyadh regular energy storage power service company

Overview

Is Saudi Arabia a leader in energy storage?

To date, Saudi Arabia has achieved significant milestones in the energy storage sector. With the official launch and operation of the Bisha Energy Storage Project, Saudi Arabia has successfully entered the ranks of the top ten global energy storage markets.

How big is Saudi Arabia's battery energy storage capacity?

Rystad Energy expects Saudi Arabia's battery energy storage capacity to surpass 11 gigawatt hours (GWh) by the end of the year, from zero at the start of 2024. According to the consultancy, Saudi Arabia plans to have the world's fifth-largest utility-scale battery storage capacity, after China, the US, Australia and the UK.

Will Saudi Arabia have energy storage projects in 2025?

According to Saudi Arabia's plans, the installed capacity of energy storage will show a rapid growth trend. In the short term, Saudi Arabia plans to have 8GWh of energy storage projects in operation by 2025, and this figure will increase to 22GWh by 2026.

Will Saudi energy supply a whole day off a single charge?

The 2.6GWh project connected to Saudi's grid early this year. BYD has also signed a contract with the Saudi Electricity Company for a 12.5GWh energy storage project. Marek Kubik, director of energy storage at Saudi's Neom megaproject, estimates the Bisha project "could supply over 90,000 US homes for a whole day off one single charge".
