

# Slovenia builds solar glass

## Overview

---

Slovenian glassmaker Steklarna Hrastnik has installed a solar power plant. The generated electricity from the plant will be used for the production of hydrogen and help reduce the company's carbon footprint.

Slovenian glassmaker Steklarna Hrastnik has installed a solar power plant. The generated electricity from the plant will be used for the production of hydrogen and help reduce the company's carbon footprint.

The first B2B solar power plant in Slovenia has been operationalized at Steklarna Hrastnik. GEN-I set-up the power plant in the scope of its partnership with Razvojni center Novi materiali (RCeNeM). Steklarna Hrastnik will use the electricity generated in the production of hydrogen. Through this.

The first B2B solar power plant goes online at Steklarna Hrastnik. As part of the partnership with Development Centre RC eNeM Ltd., the power plant was installed by GEN-I. Steklarna Hrastnik will use the generated electricity for the production of hydrogen. This sustainable investment will serve to.

Slovenia-based Bisol Group, the largest manufacturer of European-made solar modules, plans to build a new factory in an investment estimated at EUR 32.3 million. The facility in Murska Sobota in northeastern Slovenia is expected to triple Bisol's annual production capacity, from 750 MW currently.

Slovenian glassmaker Steklarna Hrastnik has installed a solar power plant. The generated electricity from the plant will be used for the production of hydrogen and help reduce the company's carbon footprint. The installation of the solar power plant is part of the OPERH2 project which is.

European Commissioner for Climate Action, Net Zero Emissions and Clean Growth, Wopke Hoekstra, recently concluded a productive working visit to Ljubljana, highlighting the growing importance of Slovenia's role in achieving the EU's ambitious climate policy objectives. A key meeting with the.

Discover how Slovenia's photovoltaic (PV) glass industry is positioning itself globally and what it means for businesses seeking sustainable energy solutions. Slovenia has emerged as a competitive player in the solar energy sector,

particularly in PV glass manufacturing. With advancements in BIPV.
