What Is A Solar Generator?
 Features of Solar Generators
 How to Choose and Use A Solar Generator
 Components of A Solar Generator
 How We Tested
 Why Trust CNN Underscored

First off, a solar generator isn't really a "generator." It's a large rechargeable battery pack -- not that different from the devices you might carry around to charge your phone while traveling -- that integrates a UPS with surge protection and an inverter and line conditioner to power your AC devices. These devices are known as "solar generators"
