☐☐ Premium Austrian solar inverters with advanced SnapINverter technology and proven reliability Founded in Austria in 1945, Fronius has evolved from a regional welding equipment manufacturer into one of the world's leading solar inverter producers. Fronius launched its first grid-connected solar.

A solar inverter is a vital segment of a solar power system that converts the direct current (DC) electricity produced by solar panels into alternating current (AC) electricity, which is suitable for powering your home appliances and feeding back

excess electricity into the grid. In simple terms.
