

Solar Lighting One for Two

Overview

The Solar Two-in-One Light integrates the battery and LED lamp into a single unit, while the solar panel remains separate. This design allows for a larger solar panel, maximizing solar energy collection and extending the lighting duration.

The Solar Two-in-One Light integrates the battery and LED lamp into a single unit, while the solar panel remains separate. This design allows for a larger solar panel, maximizing solar energy collection and extending the lighting duration.

The UP Series is a unique range of all-in-two solar lighting that delivers unmatched performance in a diverse range of environments, thanks to its high-density NiMH battery and advanced Energy Management System (EMS), which uses patented, AI-based algorithms to regulate light output based on the.
