

# Solar container battery storage factory in Cebu

## Overview

---

Meralco PowerGen Corp. (MGen) is set to roll out a 49 MW battery energy storage system (BESS) in Toledo, Cebu, with 25 MW to be delivered by 2026. The project aims to support grid stability in the Visayas and advance the Philippines' transition to clean energy.

Meralco PowerGen Corp. (MGen) is set to roll out a 49 MW battery energy storage system (BESS) in Toledo, Cebu, with 25 MW to be delivered by 2026. The project aims to support grid stability in the Visayas and advance the Philippines' transition to clean energy.

Meralco PowerGen Corp. (MGen), the power generation arm of the Manila Electric Co., is rolling out its second battery energy storage system (BESS) in the country as it accelerates investments to support grid stability and the shift to cleaner energy. The Pangilinan-led company said Monday it will.

Construction is underway on a large-scale battery energy storage system (BESS) in Toledo City that will help reinforce Cebu's power reliability amid fast-rising electricity demand and the country's broader shift toward renewable energy. The facility, spearheaded by Meralco PowerGen Corporation.

(MGen), the power generation arm of Manila Electric Co. (Meralco), is set to develop a 49-megawatt (MW) battery energy storage system (BESS) in Toledo, Cebu, which is expected to be completed by 2027. The first phase of the BESS facility, with a 25-MW capacity, is scheduled to be completed by 2026.

Pasig City, Philippines — 21 July 2025 – Meralco PowerGen Corporation (MGEN) is set to develop a 49-megawatt (MW) Battery Energy Storage System (BESS) in Toledo, Cebu as part of its efforts to enhance grid stability and support the country's energy transition. The facility will play a key role in.

The global solar storage container market is experiencing explosive growth, with demand increasing by over 200% in the past two years. Pre-fabricated containerized solutions now account for approximately 35% of all new utility-scale storage deployments worldwide. North America leads with 40% market.

LAPU-LAPU City Rep. Junard "Ahong" Chan pledged his full legislative support for

policies that will accelerate the country's renewable energy (RE) transition, including the development of a hybrid battery energy storage system (BESS), as Aboitiz Power Corp. broke ground on a pioneering P1.2-billion.
