

Solar glass prices cut in half

Overview

In order to deal with the current imbalance between supply and demand and overcapacity in the market, the top ten photovoltaic glass manufacturers including Xinyi Solar and Flat Glass Group held an emergency meeting and reached a consensus to implement a plan to close furnaces and reduce.

In order to deal with the current imbalance between supply and demand and overcapacity in the market, the top ten photovoltaic glass manufacturers including Xinyi Solar and Flat Glass Group held an emergency meeting and reached a consensus to implement a plan to close furnaces and reduce.

(Yicai) Sept. 5 -- Major Chinese producers of photovoltaic glass confirmed that they are idling furnaces to reduce output in response to a severe supply glut, but industry insiders are unsure whether this will be enough to restore the balance to supply and demand. Listed solar glass manufacturers.

In order to deal with the current imbalance between supply and demand and overcapacity in the market, the top ten photovoltaic glass manufacturers including Xinyi Solar and Flat Glass Group held an emergency meeting and reached a consensus to implement a plan to close furnaces and reduce production.

The chart below summarizes PV Solar Cell price trend per region, as well as the outlook. It takes a moment to load. Business Analytiq assumes no responsibility or liability for any errors or omissions in the content of this site. The information contained in this site is provided on an "as is".

After several weeks of steady declines across segments, the TaiyangNews PV Price Index showed signs of stabilization in Calendar Week 23. In the polysilicon category, only Chinese n-type silicon and granular silicon have registered year-to-date (YtD) declines, down by 9.9% and 4.1%, respectively.

Polysilicon pricing is no longer the gating factor to the cost of sales of a PV module and the short-term outlook on poly pricing is essentially flat. This has promoted

glass as the leading contributor to costs in the sector, a factor compounded by the transition to module bifaciality. Glass supply.
