

Solar large-capacity energy storage in western Honduras

Overview

The Honduran government and DanaSun Energy Honduras have signed an MoU to develop a 300 MW photovoltaic solar plant with 60 MW of storage in Choloma, Cortés.

The Honduran government and DanaSun Energy Honduras have signed an MoU to develop a 300 MW photovoltaic solar plant with 60 MW of storage in Choloma, Cortés.

Recently, Windey, in collaboration with EQUINSA, a local Honduran power company, successfully won the EPC turnkey contract for Honduras' first energy storage project—the Honduras Energy Storage Project—marking a critical breakthrough of "first bid, first win" in its international energy storage.

Honduras is significantly boosting its solar energy production with the addition of new solar parks and hybrid projects, thereby enhancing its position as a leader in renewable energy in Central America. This nationwide push includes landmark projects like the Nacaome II and Arenal solar parks.

Last week (7 November) saw bids opened for a 75MW/300MWh BESS tender launched by the government of Honduras, in Central America. The public event marked the opening of bids for the energy storage procurement, called LPI-001-ENEE-UEPER-2024, for the 'Supply, installation, testing and commissioning.

In a region known for its vibrant landscapes and rich cultural heritage, Central America is now on the brink of a transformative energy initiative that could redefine its energy landscape. Honduras has emerged as the focal point for what is being touted as the "most ambitious storage project in.

The Honduran government and DanaSun Energy Honduras have signed an MoU to develop a 300 MW photovoltaic solar plant with 60 MW of storage in Choloma, Cortés. The initial phase will include 100 MW of solar capacity and 20 MW/80 MWh of storage, with operations expected to begin between March and.

Our lithium-based energy storage systems are specifically built for hot, humid environments like Honduras. This article explores how we're tackling the unique

climate challenges of Central America through innovation, customization, and high-performance solar battery design. Why Reliable Storage Is.
