Jakarta, Indonesia (June 23) – LONGi, a global leader in solar photovoltaic (PV) solutions, has officially launched a strategic project to establish a state-of-the-art solar panel manufacturing facility in Indonesia, in collaboration with Pertamina New & Renewable Energy (Pertamina NRE), a.

Aslan Energy Capital and Jakarta Industrial Estate Pulogadung (JIEP) have signed a head of agreement to build a new data centre in East Jakarta, Indonesia. The project is called the Aslan Jakarta Data Centre, or AJDC. The planned facility will have a power capacity of 40 megawatts. It will be.

Indonesia, an archipelago forming over 17,000 islands, is rich in natural resources and has as much solar potential as it does challenges. Indonesia, an archipelago forming over 17,000 islands, is rich in natural resources and has as much solar potential as it does challenges. In recent years, the.

Jakarta, August 5, 2025 – The 2025–2060 National Energy Policy targets increasing demand for solar power plants, reaching up to 108.7 GW by 2060. Indonesian President Prabowo Subianto emphasized that the utilization of renewable energy, particularly solar energy, is a strategic step toward.

consulting work by J.v.G. Technology GmbH in solar module production and factory optimization. All data points are realistic but simplified for clarity and educational purposes. Indonesia presents a compelling paradox for investors. It is a nation of over 17,000 islands blessed with abundant solar.

Apollo Solar Indonesia is founded in Jakarta by Indonesian-based businesses.

Commissioning and debugging of Apollo's 500 MW/year solar panel manufacturing facility in Batam City is successfully completed. Mecen Hong Kong awards Apollo a 4 MW Original Equipment Manufacturer (OEM) contract. Apollo.
