

# Solar power station in China in Tunisia

## Overview

---

On December 16 local time, the Kairouan 100 MW photovoltaic power station project in Tunisia, the country's first large-scale ground-mounted PV power station and the largest single-capacity photovoltaic plant in Tunisia, which was constructed under an EPC contract by a consortium.

On December 16 local time, the Kairouan 100 MW photovoltaic power station project in Tunisia, the country's first large-scale ground-mounted PV power station and the largest single-capacity photovoltaic plant in Tunisia, which was constructed under an EPC contract by a consortium.

TUNIS, Dec. 17 (Xinhua) -- A solar photovoltaic power station built by Chinese companies was inaugurated on Tuesday in central Tunisia's Kairouan province. Tunisian Minister of Industry, Mines and Energy Fatma Thabet Chiboub said at the inauguration ceremony that the project is Tunisia's largest.

On December 16 local time, the Kairouan 100 MW photovoltaic power station project in Tunisia, the country's first large-scale ground-mounted PV power station and the largest single-capacity photovoltaic plant in Tunisia, which was constructed under an EPC contract by a consortium of Northwest.

On December 16 local time, the 100 MW Kairouan Solar PV Project, the largest single-site photovoltaic project in Tunisia, achieved full-capacity grid connection and officially entered commercial operation. The project is EPC-constructed by the consortium of China Energy Engineering Group Tianjin.
