

# Solar power storage in China in Melbourne

## Overview

---

China solar giant Trina is making its move into the booming global big battery market, with the global unveil of its new 2MW/4MWh grid-scale Elementa 2 energy storage system, at All-Energy Australia in Melbourne on Wednesday.

China solar giant Trina is making its move into the booming global big battery market, with the global unveil of its new 2MW/4MWh grid-scale Elementa 2 energy storage system, at All-Energy Australia in Melbourne on Wednesday.

The Chinese solar giants that have dominated the rollout of low cost PV on homes and at grid scale projects across Australia and much of the world over the last decade have turned over a new leaf: They are now offering battery storage at scale, and deciding the best option is to build the projects.

A Chinese company will help deliver cleaner and cheaper energy for thousands of Victorian homes, after the Allan Labor Government gave the green light to a multi-million-dollar renewable energy project in North-East Victoria. Today in Beijing, Premier Jacinta Allan met with Trina Solar - who are.

The Victoria government in Australia has approved a 300MW/1,200MWh battery energy storage system (BESS) in Gippsland and a 332MW solar PV power plant with integrated storage in the state's northeast region, via the Development Facilitation Program. Victoria's planning minister, Sonya Kilkenny.

Buckley believes Australia's positive trade relations with China will increase the investability prospects in the country's energy storage market, which could prove vital in Australia's shift to a green economy. "To me, the single biggest opportunity for Australia is to enhance and pivot our.
