

Solar powered trailer mobile lighting

Overview

What is a mobile solar light tower?

The mobile solar light tower is a portable lighting system integrating solar panels, LED lighting, intelligent control, 4G monitoring system, communication base station, and a hybrid battery storage of solar and grid electricity, suitable for various temporary or long-term lighting needs.

How big is a mobile light trailer?

Medium Model mobile light trailer, height 9 meters (29 feet), can illuminate 1500 square meters, equivalent to lighting up 3 standard basketball courts; suitable for construction sites, disaster relief, mining areas, etc.

How tall is a solar trailer?

The solar trailer's driving height is just over 10'. With trailer pulling experience, this can be deployed by two people in less than 5 minutes, allowing you to get your powered trailer up and running rapidly and easily. Each Solar Platform can be customized to fit your specific needs.

What is a portable solar light cart?

These portable solar light carts are univervally considered best in class able to fit the most solar in small footprint than any competitor. Includes a telescoping mast and lights that can be raised, lowered, rotated or tilted, to direct the lights where desired.
