

Solar tile company in Rotterdam the Netherlands

Overview

Where is solar roof tile made?

The solar roof tile is currently manufactured and sold in the Netherlands, where it has passed the necessary technical tests and quality approvals. A roll-out to other European countries is planned. “In the Netherlands, the solar roof tile has generated significant interest.

What is a Dutch solar roof tile?

The Dutch solar roof tile marks wienerberger’s first step towards a comprehensive portfolio of energy systems and developing the product required innovative approaches: “clay products are part and parcel of wienerberger’s day to day business and our expertise in the field is unbeatable.

Is solar tile a sustainable solution?

“The new solar tile means we can combine the best of both worlds: a typical clay tile roof and efficient energy generation using solar power. This is a sustainable solution that meets today’s energy and sustainability needs and will continue to do so in the future”, says Jacco Venema, New Business Manager at wienerberger Netherlands.

What is a solar tile roof?

In wienerberger’s solution the solar cells are combined with a traditional ceramic roof tile and actually built into the roof tile. This preserves the aesthetic appeal of the roof. “The new solar tile means we can combine the best of both worlds: a typical clay tile roof and efficient energy generation using solar power.
