Almost All Islands are Ripe for Microgrid Adoption Including the Battle of Guadalcanal. The nation still suffers from a.

HONIARA, SOLOMON ISLANDS (11 September 2024)– The Asian Development Bank (ADB) and the Government of Solomon Islands are joining other partners to help Solomon Islands transition to renewable energy with a transformational project that will accelerate renewable energy generation and battery storage.

The Solomon Islands Renewable Energy Development Project will finance two solar farms and a utility-scale grid-connected energy storage system on the Solomon Islands. The Asian Development Bank, Saudi Fund for Development, and Solomon Power are all financing the project. A project is now underway.

Imagine a tropical archipelago where 72,000 islanders across 900+ islands rely on diesel generators that guzzle \$0.30/kWh—triple the U.S. average. Welcome to the Solomon Islands, where the Oslo Solomon Islands Energy Storage Project aims to swap smoke-belching generators for lithium-ion batteries.

This will provide access of low-income households to electricity in Peri-urban and

rural areas of Solomon Islands, and by increasing the generation capacity of renewable energy facilities (solar PV) in the Islands. How did the Solomon Islands make getting electricity easier?
