

# Somalia energy storage power supply direct sales

## Overview

---

What is the energy sector like in Somalia?

Somalia's energy sector is considered promising for growth and investment. Small and medium-sized private sector companies are the main providers of electricity generation and distribution, primarily running diesel powered systems through off-grid networks.

How much does electricity cost in Somalia?

Regarding costs per kilowatt-hour of electricity, Somalia has one of the highest unit prices in Africa. Somalia has higher tariffs than neighboring countries Kenya and Ethiopia, ranging from 50-125 cents/kWh compared to 0.15 cents/kWh in Kenya and 0.6 cents/kWh in Ethiopia. Somalia's energy sector is considered promising for growth and investment.

Who generates electricity in Somalia?

Small and medium-sized private sector companies are the main providers of electricity generation and distribution, primarily running diesel powered systems through off-grid networks. Private Somali companies generate approximately 128MW; most companies generate and distribute electricity independently.

Does Somalia have solar energy?

Solar Energy: Somalia has high renewable energy potential. Solar power could generate an excess of 2,000 kWh if the country reached its full capacity. Recently there has been progress in developing solar energy systems in the country by private sector electricity companies.
