COLLAPSECON is the next evolution of shipping containers - a fully automated

collapsible container that will improve operational efficiencies, deliver economic savings and reduce environmental impact across the supply chain, all without requiring a fundamental change to the industry or global. What is a hand-held folding container system?

Take the air out of shipping and storage costs with the Hand-Held Folding Container System. To sharpen material handling efficiency, ORBIS' folding containers offer more capacity, less wasted space, reduced shipping and storage costs. They quickly assemble or collapse in only 3.8 seconds.

What is a foldable container?

The foldable design saves space and reduces transport costs. Strong, secure, and easy to install, it suits various temporary uses. A modular, collapsible structure designed for easy assembly and disassembly. The container is stackable & Easily transportable. The design expands space for comfort and versatility.

Is a returnable foldable large container sustainable?

One-way packaging is still widely used, and the return shipment of empty containers is costly. Using disposable packaging, however, is neither sustainable, nor very efficient. For improved space and capacity utilisation ORBIS has introduced a returnable foldable large container (FLC).

Why do you need a folding container?

To sharpen material handling efficiency, ORBIS' folding containers offer more capacity, less wasted space, reduced shipping and storage costs. They quickly assemble or collapse in only 3.8 seconds. Containers are an economic, environmental and efficient alternative to corrugated boxes or cases when shipping long distances.
