

St George a solar Glass Industry

Overview

The St. George solar project, boasting a capacity of 229MW and nearly 400,000 PV panels, will be one of the largest of its kind in the country. Over a 12-year period, it is expected to provide AGP-Europe with 110GWh of renewable electricity annually.

The St. George solar project, boasting a capacity of 229MW and nearly 400,000 PV panels, will be one of the largest of its kind in the country. Over a 12-year period, it is expected to provide AGP-Europe with 110GWh of renewable electricity annually.

BULGARIA - Ardagh Glass Packaging-Europe (AGP-Europe), part of Ardagh Group, has signed a long-term virtual power purchase agreement (VPPA) with Rezolv Energy, marking a significant step in the company's commitment to sustainable energy. This agreement will supply AGP's glass manufacturing.

Ardagh Glass Packaging-Europe (AGP-Europe), a division of Ardagh Group, has secured a long-term virtual power purchase agreement (VPPA) with Rezolv Energy. The deal will provide AGP's European glass manufacturing operations with renewable electricity from the St. George solar photovoltaic (PV).

Ardagh Glass Packaging-Europe (AGP-Europe), an operating business of Ardagh Group, announced that it has entered a long-term Virtual Power Purchase Agreement (VPPA) with Rezolv Energy's St. George solar photovoltaic (PV) project in Bulgaria, securing renewable electricity for its glass.

Ardagh Glass Packaging-Europe (AGP-Europe), an operating business of Ardagh Group, announced today that it has entered a long-term Virtual Power Purchase Agreement (VPPA) with Rezolv Energy's St. George solar photovoltaic (PV) project in Bulgaria, securing renewable electricity for its glass.

September 5 (SeeNews) - Ardagh Glass Packaging-Europe (AGP-Europe) said on Thursday that it has entered a long-term Virtual Power Purchase Agreement (VPPA) with Prague-based Rezolv Energy's St. George solar photovoltaic project in Bulgaria, securing renewable electricity for its glass manufacturing.
